CAREER OBJECTIVE

Motivated and responsible graduate seeking an entry-level **Technical Support Engineer** position where I can utilize my technical knowledge and communication skills to effectively help users resolve their **problems**. Enthusiastic about learning new technologies and contributing to the success of the team by providing quality and **customer-centric** technical support. Seeking a challenging opportunity to grow professionally while providing high-quality technical solutions.

EDUCATION

Teegala Krishna Reddy Engineering College **2021 -2025**
Btech/Electronics and Communication Engineering **CGPA 8.5/10**

TECHNICAL SKILLS

Operating Systems: Windows, Basic Linux.
Networking: DNS, TCP/IP, HTTP/HTTPS
Databases: MySQL
Programming: Python
Web Technologies: HTML, CSS
Tools: Git, VS Code
Remote Support: AnyDesk, TeamViewer **(**Basic usage**)**

INTERNSHIP:

Tata Group – GenAI-Powered Data Analytics Virtual Experience**.** **Forage, July 2025**

- Learned how to use AI tools to understand and analyse data.
- Found patterns in financial data to help identify customer risks.
- Created a simple, no-code model to predict which customers might not repay on time.
- Designed a fair and responsible AI-based strategy to improve collections.
- Gained practical experience in using AI for real business problems.

PROJECTS

Technical Support Ticket System (Mini Project) :

- Built a simple web-based system where users can raise issues and track ticket status.
- Implemented user and admin roles for managing support requests.
- Learned real-world troubleshooting workflow and customer issue handling.

Job Portal Web Application (Django)

- Developed a Django-based Job Portal enabling candidates to apply for jobs and recruiters to post and manage openings with **secure authentication**.
- Implemented **role-based access control, resume file uploads,** and **application status workflow** (Submitted, Under Review, Hired/Rejected) using **Django ORM** and **ModelForms.**
- Designed **responsive user interfaces** using Django template language**(DTL)** and managed database operations with SQLite and version control using Git/GitHub.

CERTIFICATIONS

- Certification in Machine Learning using Python Library by NASSCOM
- Certification in Building Data Analytics Application with Cloud by EY
- Certification in Data Analytics by TATA Group
